

Yealink

Yealink Conference Phones Easy Conferencing, Clear Communication

Yealink designs its audio conferencing solutions to suit a range of different meeting environments. The CP960 and the CP920 address today's audio conferencing challenges and unify a clear-and-easy conferencing communication experience for both in-room and remote participants. The CP960 targets mid-to-large-sized meetings while the CP920 covers small-to-mid-sized meetings.

Pure and Powerful Sound Quality

Enterprise-grade and performance-oriented, Yealink conference phones deliver best-in-class HD audio quality for everyone in a meeting to keep pace with the team's collaboration and contribute inspired work.

Advanced speakerphone

Pure and powerful voice

Wide-range Voice Pickup, Dead-zone Free

- Featuring 20-foot 360-degree dead-zone-free voice pickup, the coverage area of the CP960 and CP920 adapts to multiple room environments and provides a full sound experience.
- By adding a pair of CPW90 wireless microphones (for CP960 only), participants within a large conference room can move freely and communicate clearly. The CPW90 utilizes Yealink's DECT technology and HD voice technologies to optimize mobility and expand audio coverage area.
- The CP960 supports star connection with up to 3 models of CP960, working together to meet super large meeting broadcast and voice pickup requirements.

Yealink Noise Proof Technology for Smart and Powerful Noise Elimination

- Yealink's Noise Proof Technology frees business voice collaboration from annoying noise and optimizes conference efficiency by minimizing distractions. The Yealink Noise Proof technology includes two interrelated functions:
 - During a conference, Noise Proof reduces constant background noise from sources such as typing, air conditioners, etc.; and
 - When a person is not speaking, Noise Proof automatically mutes the mic(s) until the sound of a human voice is detected.

Yealink Noise Proof Technology

Ergonomic Design, Best-in-Class Experience

- Stylish and professional, Yealink conference phones adopt a Y-shaped metallic sliver body design. With a five-inch touch screen and intuitive interface, the CP960 puts smooth and easy control at your fingertips. Quicker meeting starts and lower training requirements make the CP960 incredibly user-friendly. For users who prefer a traditional key system, the CP920 offers a familiar touchable keypad for less stress and more comfort.

Pentagon Meeting Room

- Offering up to five-party conferencing, Yealink conference phones allow meeting organizers to quickly create a meeting and to add conference participants without interrupting the ongoing conversation.
- The 5-inch touch screen on the CP960 creates a virtual meeting room user interface -- the Yealink Pentagon Meeting Room -- that mimics the sense of physical conferencing for fast and easy conference control. It enables speed connection with one-touch inviting all the selected participants. The Yealink Active Speaker displays the current speaker's icon to make conferencing easier than ever.

Hybrid UC Meeting Enabled

- The CP960 and CP920 enable the Hybrid UC Meeting for extraordinary convenience. With Bluetooth and USB connectivity, you can easily pair the conference phone with a PC or mobile phone. Join or create a conference by simply merging the calls.
